

STABILITY OF CONTACT RESISTANCE UNDER TEMPERATURE VARIATION

Probe tip shape : Round< $\phi 1$ >	Spring Force : 150g
Base material of DUT : Brass	Surface of DUT : Aurum plating
Wire connection : Soldering to probe	

Outer spring type (Sankei Engineering's products)

Values include intrinsic resistance of a probe and a device under test (DUT).

Inner spring type

Values include intrinsic resistance of a probe and a device under test (DUT).
